Foreword

Carnival is with us once again. For our 18th year we have chosen "Transport Through The Ages" as our theme.

We hope that once again we will be providing you with a week-end of good family entertainment. Reading your programme you will see that in addition to all the favourite annual events we have introduced several new and exciting attractions, which we hope will add to your enjoyment.

As always Newport Pagnell's Carnival is in aid of local charities. This year we have nominated what we hope you will all agree is a most deserving cause. The Newport Pagnell Branch of the Royal British Legion is working hard to raise money for its Headquarters and Club Building Fund and we feel that any help we can provide will be money well spent. Obviously we hope to make enough profit to enable us to help other local deserving causes. It all depends on your support which over the years we have come to rely on.

See you all at the Carnival.

R. J. ALBONE
Chairman.

NEWPORT PAGNELL CARNIVAL COMMITTEE

Chairman:

Mr. R. J. ALBONE

ACKNOWLEDGMENTS

The Carnival Committee would like to take this opportunity to thank all organisations, firms and individuals, who donated time, money and effort to ensure the success of Carnival 1977.

THE BARNSTORMERS flying circus

For the last 15 years or more the Barnstormers have been organising and producing air shows throughout the British Isles and at times covered Southern Ireland and other European Countries.

Since our inauguration in the early sixties the standard of flying has improved to such an extent that we have now acclaimed world-wide fame through the media of film and television.

The idea behind our type of display is to give the general public an idea of the way they used to entertain with aeroplanes during the late 1920s and early thirties when famous people like the late Sir Alan Cobham operated a touring flying circus. At that time the aeroplane was still considered as something new and people like Sir Alan Cobham gave the population of this country a chance to understand the real need for man to fly. To develop his horizons, to see something happen that was once acclaimed impossible, and last but not least to get pleasure from it all. The Barnstormers aims are to entertain in the same light-hearted manner, displaying the skills and airmanship of men and women that often fly aircraft older than themselves. The type of aircraft that we use need to be flown with enthusiasm, love and care. It is often said that yesterday's flying was flying, but today it is becoming so much more of a technical achievement.

One of the only ways to encourage young people to take up flying as a sport or commercially is to show them that it can still accept those people with a spirit of adventure. Unfortunately Great Britain is one of the least air-minded countries in the world and to help overcome this we try in our own small way to change this attitude towards flying.

To produce a safe and well organised display the Barnstormers have a very large team of people who come from all walks of life. It works in a similar way to the Big Top Circus and produces the same atmosphere of a big happy family, with everyone knowing what job they have to do. The team is divided into two sections, one the pilots and the other the ground staff. The latter often never see any of the glamour but still enjoy being part of the team. Some of our pilots are professionals, yet others, equally as competent come from many different occupations to take part in the displays at weekends.

My own task in the Barnstormers is to co-ordinate the whole event and am often termed as the 'Circus Boss'. It can sometimes take as long as six months to organise a display which produces a full time job for 12 months of the year.

Again in the hope that we have encouraged someone to take up flying I would like to take this opportunity to thank you for coming and hope that you enjoyed the show.

AVIETTES MODEL AIRCRAFT DISPLAY TEAM

This local team of five pilots with their support ground staff of seven, based at their own airstrip at Hanslope, design, develop and fly a variety of multi channel radio controlled aircraft.

It takes hundreds of flying hours to refine the skills necessary to control these intricate machines, ranging from a First World War Mannock, used in the B.B.C. serial "Wings" through Second World War Spitfires to an eight foot wing span Concorde.

At the time of going to press, development is well advanced on the "Taffy Bomber" which drops "sweet bombs" over the arena, and—reaching into the unknown—a Flying Saucer.

This display will excite the kids, interest the dads and entertain you all.

THE WILD BUNCH

The Wild Bunch Western Society, a group of people from Blechley who have got together to perform gunfights such as "The Gunfight at the O.K. Corral", and the show that we are performing to-day which is the "Release of Jesse James from Pat Garratt, Sheriff of Lincoln County".

This Society was formed in March this year by several people from Blechley who started it for their own enjoyment, but it has got much more than that and now we hope that the public enjoy the show as much as we enjoy performing it.

We now have our own hide-out where we practise our gunfights and also try out our home-made props.

The Committee of our Society consists of Marshal (Melvyn), Deputy Marshal (Tony) and two Sheriffs (Carl and Bob). Besides the Committee the rest of The Bunch consists of Marilyn, Theresa, Denise and Carol, Bringing up the rear is Bill, better known as 'Doc Holiday' or Joe.

Here's hoping you enjoy the show and wishing you all the best for the future year.

Bye for now,

The Wild Bunch.

DEMON BILL DEEGAN HELL RIDERS

BRITAIN'S BEST CHAMPION MOTOR CYCLE
STUNT ACES

SENSATIONAL!
SPECTACULAR!
DEATH DEFYING!
A THRILL
A SECOND!

BILL DEEGAN
"RISKING DEATH TO LIVE"

Bill Deegan and his team—British Riders on British Machines—present a highly spectacular and skilful display.

Thirty minutes of stunts more thrilling than anything ever seen before, finishing with the greatest motor-cycle stunt ever performed. Bill Deegan himself was the first man to ride through a sheet of plate glass dressed only in bathing trunks.

The team have made many successful T.V. appearances, while a special B.B.C. film has been made of the act. Constant practice and a strong nerve are required by all members of the team. Their lives depend on the skill of each other, they cannot afford to make mistakes So you'll gasp at their breathtaking skills, their versatility and their daring!!!
